## Canadian PowerFloat REPAIR PROCEDURES

Canadian Authorized repair facility:

**Levys Machine Works**  
**3503, 78<sup>th</sup> Ave. SE**  
**Calgary, Alberta T2C 1J7**

**1-877-969-2233**

1. Ship to facility above.
2. Ship the PowerFloat in a suitable protective box or case. Remove all accessories and equipment that do not require inspection or repair from the package. **Each PowerFloat drill or attachment in the package will be evaluated and subject to an evaluation charge as listed below unless otherwise specified.** Remove all batteries from cordless units unless it is a 14 Volt or 18 Volt drill in which case, please include one battery in the package. Ensure that the battery is detached from the drill.  
  
If not shipping in the carrying case, make sure to use a rigid box with flaps intact, adequate cushioning material and strong tape designed for shipping. PowerFloat will not be responsible for damaged cases due to shipping.
3. Complete the **Repair Authorization Form**.
  - Email to: [info@powerfloat.net](mailto:info@powerfloat.net) **or** fax (403) 984-7702.
  - Include one copy in the package with your PowerFloat.
  - Retain one copy for your records.
4. You will be contacted with a quote prior to all repairs being completed. Customers are responsible for all shipping costs. Your PowerFloat will be returned to you upon receipt of payment.

**\*\*\* There will be a \$200.00 evaluation charge on each PowerFloat drill or attachment evaluated but not approved for repair.**

Please direct all questions or concerns regarding the repairs to the PowerFloat office at 1-877-969-2233.  
Do not call repair facility directly.
